Aistear: the Early Childhood Curriculum Framework

Aistear is the curriculum framework for children from birth to six years. The Framework helps children grow and develop as confident and competent learners through fun, interesting and challenging experiences.

Select Option Here »

Primary School Curriculum

The Primary School Curriculum celebrates the uniqueness of each child, and recognises the importance of developing the child's full potential and preparing him/her for lifelong learning.

Select Option Here »

Junior Cycle Curriculum

The junior cycle provides the student with a broad range of learning experiences. It aims to develop the student's knowledge, skills and attitudes necessary for study and for life beyond education.

Select Option Here »

Senior Cycle Curriculum

A variety of programmes, including Transition Year, Vocational Programme, and the Leaving Certificate senior cycle.

Parents & Family

Is your son or daughter considering continuing their studies? Is an adult in your house thinking of returning to education?

There are lots of questions to consider when someone in your family is thinking of continuing or restarting their education or training. It may be your son or daughter who is making choices about what courses or programmes interest them. An adult in your house might want to return to education, be looking for ways to improve their skills or simply wishes to learn more about a hobby or leisure interest.

Regardless of who it is, Qualifax aims to help you support that person to make informed choices. Use the menu on the left hand side to find out more.

Course Details - Entry Requirements

University College Cork

Accounting

[Back to search results](#)

▼ Course Details

Course Name	Accounting
Course Provider	University College Cork
Course Code	CK202
Minimum Subjects	2 H5 & 4 O6/H7
Specific Subjects or Course Requirements	Minimum grade H5 in two subjects and minimum grade O6/H7 in four other subjects. Subjects must include Irish, English, Mathematics, another language and two other subjects recognised for entry purposes
Leaving Certificate General Entry Requirements	IRISH LEAVING CERTIFICATE SCHOOL LEAVERS If you present the Irish Leaving Certificate you need to present six recognised subjects, selected according to course requirements, you must obtain a minimum grade H5 in two subjects and minimum grade O6/ H7 in the remaining four subjects, in order to meet matriculation requirements. For all courses in UCC this must include Irish (unless exempt) and English. To compete for a place on a programme, you must meet the minimum entry requirements as well as any specific/additional requirements, and then compete based on results obtained, e.g. points. You can combine results achieved in different sittings for the purpose of meeting the minimum entry requirements for programmes (except for Medicine, CK701). However, results achieved in separate years may not be combined for the purpose of scoring points. You will compete based on a points scheme.

Now you have the specific requirements of an individual course.

[New Search](#)

What Influences Subject Choice

- Perception of '**easy**' or '**hard**' subjects
- Like/dislike the **teacher**, or the teacher they think will be teaching them
- Friends/**parents**/significant others such as siblings
- **Needing** the subject for course/career choice after the Leaving Cert
- Being good at the subject – **attainment** in JC
- Likes/dislikes the subject – enthusiasm & **interest**

Essential Subjects (or non-essential!)

- You don't need Design and Communication Graphics to become an Architect
- You don't need Engineering to be an Engineer
- You don't need Biology to be a Nurse
- You don't need Accountancy to become an Accountant
- You don't need Business to take a Management Degree
- You don't need a Modern Language for Primary School Teaching
- You don't even need Italian to study Italian in Trinity!

Watch for Subjects with a 'practical element'

Art	62% practical	38% final exam
Construction	50% practical	50% final exam
Engineering	50% practical	50% final exam
DCG	40% practical	60% final exam
History	20% project	80% final exam
Home Economics	20% project	80% final exam
Geography	20% fieldtrip	80% final exam
Economics	20% project	80% final exam
Applied Maths	20% project	80% final exam

Optional Subjects: Five Areas

19 subjects to choose from

- Languages
- Sciences
- Business
- Social Studies
- Applied Sciences

CHOOSE 4

Language Options

- Irish
- English
- French
- German
- Latvian / Lithuanian / Polish /
Russian / Croatian / Romanian

Irish

A requirement for UCD, Maynooth, Galway, Shannon College of Hotel Management, Royal College of Surgeons, St. Angela's College of Education (TUS), the Institute of Public Administration and UC Cork.

For entry to the Garda Síochána you must have a proven proficiency in two languages; one of which must be Irish or English. (Foundation Level Irish is not acceptable.)

In Ireland you need a H4 or better in Honours Irish to become a primary school teacher.

Satisfies the requirement of a modern language for entry to Trinity College, and as a language, other than English, for entry to the University of Limerick (UL) and Dublin City University (DCU).

Remember - there are still no points for Foundation Level Irish.

English

Check with teachers about movement from honours to ordinary level.

Most Universities, colleges and employers require English at pass level, other colleges will take Irish or English.

Don't Fail Honours English.

Higher English is required for a handful of courses in areas such as Journalism, Multimedia, Communications, Media Studies, Legal Studies and Speech Therapy. (Psychology in UK Courses.)

Languages

An increase in courses such as business that have a modern language as part of the course.

You may need it as a matriculation requirement for some courses for the NUI Colleges (Ordinary Level only).

You also need it if you are interested in the Cadets.

Language is obviously an important requirement for courses such as European Studies, Tourism, Languages and Marketing.

A Modern European Language is **not** required for Nursing, Primary School Teaching, Science, Ag. Science or Engineering even at University level. (Nor for Business & Law in NUI Maynooth.)

The best advice would be not to take a language if you have struggled with it up to now.

French and German are available. Students may also sign up for the Leaving Certificate Polish exam among others.

Science Area

- Biology
- Chemistry
- Physics
- Mathematics
- Agricultural Science
- Applied Mathematics

Biology / Chemistry / Physics

Courses that require a science subject include engineering and medical courses, paramedical courses such as biomedical science, dentistry, occupational therapy, pharmacy, physiotherapy, radiography and human nutrition.

You may pursue a course in, science, technology, engineering or maths at an Institute of Technology or Technical University without a science subject, but ask if it might be a disadvantage.

If a career in medicine or nursing is high on your list you should think in terms of Chemistry and Biology (preferably both).

Two science subjects are required for Medicine and Dentistry in Trinity College, Dublin.

Interested in engineering then Physics and Chemistry should both be considered.

Biology is desirable but not necessary for those who wish to study Nursing. Students who opt for the Biology Elective for Home Economics Training in St. Angela's must pass Biology. (Note: even P.E. with Biology in DCU will accept Physics or Chemistry).

British Association for the Advancement of Science

Maths / Applied Maths

Mathematics is a requirement for a great number of jobs and courses.

A grade O3 or better in Ordinary Level Maths is required for many Science or Commerce courses at University. This reflects the level of Mathematics that has to be studied as part of the course.

Maths is required by relatively few courses (72), the majority of which are Honours Engineering Degrees.

Foundation Maths is acceptable for many Careers. Some Colleges will allow it where no Maths is involved in the course, but may not award any points for it. Some employers will accept it for apprenticeships. Most PLC courses will also accept it, an exception being Accounting Technician and some Pre-University courses. **Not acceptable for the Gardai.**

Foundation Maths is acceptable for places on Arts, Music, Social Science and Law Degrees in the N.U.I. Colleges, as well as small number of courses in DCU.

Honours Applied Maths fulfills the Honours Maths requirement for Engineering & Computing courses in DCU.

Business Area

- Accounting*
- Business
- Economics

*Not compulsory for any Business,
Management or Commerce course at
third level*

** One exception: Commerce & Accounting in N.U.I. Galway requires Accounting as a subject.*

Social Studies

- History
- Geography
- Art
- Music

History / Geography

HISTORY

Even though history is not essential for entry to any third-level course, nonetheless, the study of history contributes enormously to an all-round education.

Very helpful for the study of Law, Politics or Journalism.

GEOGRAPHY:

Although Geography is not essential for entry to third-level courses, in Trinity College it is accepted as one of the H5 grades for entry to both Science and Pharmacy. While in UCD Geography may be used as a laboratory science subject for entry to Science / Archaeology & Geology programmes.

Art / Music

ART (including Crafts):

Although art is not specified as an entry requirement for **all** Colleges of Art, a portfolio of work is an essential element for application.

Many students take a year out to complete a portfolio preparation course in order to try and enhance their chances of getting a place in Art College.

National College of Art and Design require a pass in Art or a language.

MUSIC

At the moment Music can only be taken as a subject outside of school.

If you intend to study music at third level you need to check to see which courses specify a grade in music.

Expect to be asked to attend a special music test or audition if applying for courses in Music.

Watch for Performing Arts - Irish Traditional Music / Irish Traditional Dance / Contemporary Dance / Voice / World Music in UL. (**Musical Auditions**)

Applied Science
